Optical Passives (ISP)
OP35M4x, OP35D4x
DWDM Mux and Demux Modules
4 Channels on 100 GHz-spaced ITU Grid

FEATURES

- 4-channel optical mux and demux modules with cascade ports for daisy-chaining of multiple modules
- Channels spaced on standard 100 GHz DWDM ITU grid
- Flat-top passband
- High optical isolation
- Supports both forward and return path transmission of analog and digital signals
- Mux and demux pairs optimized for minimum combined insertion loss across all channels
- SC/APC connectors ensure performance repeatability, compatibility, and easy installation and maintenance
- Optional line monitoring tap (~20 dB from mux output or demux input)
- Industry’s highest packaging density (up to 32 modules per chassis)
- Occupies one half-depth slot
- LGX chassis-compatible

PRODUCT OVERVIEW

ARRIS’s OP35M4x and OP35D4x series 4-channel DWDM multiplexers and demultiplexers facilitate DWDM architectures. DWDM technology can dramatically increase network capacity without requiring additional fiber be deployed for super-trunking or narrowcasting applications. ARRIS supports DWDM architectures with a variety of products having 100 GHz center frequency spacing on the standard DWDM ITU Grid (ITU-T G.694.1) for 40 channels from Channel 20 to Channel 59. In many of ARRIS’s products, these channels are logically partitioned into groups of 4, 8, or 16 channels (with letters used to designate channel groups). That concept is employed in the OP35M4x and OP35D4x series of 4-channel mux and demux modules.

</table>

### NOTES:

1. Including connectors;
2. Paired insertion loss when combined with 4-ch demux module from Ch. yy INP to Ch. yy OUT, and vice-versa
**ORDERING INFORMATION**

Optical Passive Mux/Demux Module

* = Module Type (M = Mux, D = Demux)

4-channel Module

* = DWDM ITU Channel Group

Cascade (Pass-through) Port and -20 dB Test Port present, and SC/APC Connector

**Note:**
Mux and demux modules are available for Channel Groups J, K, L, M, N, P, R, S, T, and U. Please refer to the ARRIS DWDM ITU Grid Channel Plan data sheet for a complete description of the channels included in these groups.
